

Golden Retriever

Materials List

- Photo Credit: Unsplash
- Surface: Grafix Drafting film .005 Double Sided Matt (Grafix Duralar or Polydraw) It's important that you have the right surface for the workshop due to the techniques being used.
- Size: 4x4 inches or 11x11cm. I have provided you with a pdf file that is 21x29 cm and should print easily on A4 or Letter printer. The size is correct, yes it's on the small side but this is so we can hopefully finish.

You may sell your finished drawing and take prints if you wish.

Additional Tools:

- Kneadable eraser
- Tombow Mono Eraser 2.3mm
- Slice tool - I favour the Slice Manual Pen Cutter

Faber Castell Polychromos

Black
